

Secure your instance! With GetSome.

What we do...

- **ServiceNow Platform Security** Assessments and remediation
- Setup and maintenance of the **ServiceNow Data Privacy** Application
- **ServiceNow Platform Health** Assessment and remediation
- Subscription Management and **ServiceNow Licensing Optimisation**
- and **Best Practice Maintenance Services** to maintain your gains.

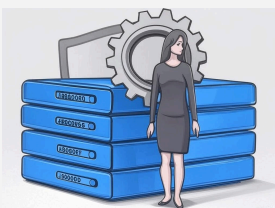

What's in it for you...

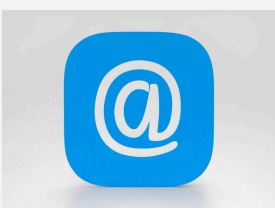

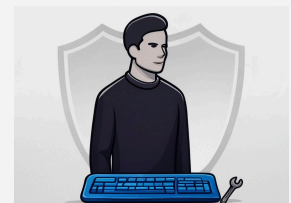

CEO – As a CEO, protect your critical ServiceNow investment with GetSome's Security & Hardening Assessment. **Uncover risks in 3 days, eliminate vulnerabilities in 2 weeks**—secure operations, cut costs, protect your reputation.

CISO – As a CISO, having GetSome setup ServiceNow's Data Privacy application allows you to **rapidly reduce your attack surface** and enhance compliance with GDPR, HIPAA, and global privacy laws.

Platform Owner – Let our team lift your platform compliance with our Platform Health best Practice Assessment. **We remediate complex best practice violations** or if you prefer, provide you a roadmap for your team to remediate.

Platform Admin - Tired of juggling endless tasks while worrying about security gaps? **Our Maintenance Plans keep things humming** with automated scans and alerts. **Focus on what you do best while we tackle the boring stuff for you.**

Secure your instance! With GetSome.
